

# MIKOŁAJ SUMERA

FULLSTACK DEVELOPER

## CONTACT

+48 534 942 788

m.sumera2004@gmail.com

## SKILLS

### Frontend:

Angular, TypeScript, React, Next.js, JavaScript (ES6+), HTML5, CSS3, SASS/LESS, RxJS, NgRx, Angular Material, PrimeNg, Bootstrap, Tailwind, SPA, RWD.

### Backend:

Symfony, PHP, Doctrine ORM, API Platform, Twig, PHPUnit, Java, Spring Boot

### Databases:

MySQL, PostgreSQL, MongoDB

### DevOps / Tools/ Ecosystems:

Docker, Kong, Keycloak, Prometheus, Grafana, Git, Composer, Jenkins, JIRA, CI/CD

### Others:

REST API, API, Agile, Scrum, JIRA, OOP, SOLID, Design Patterns, Unit tests, E2E Testing

## LANGUAGES

Polish - Native  
English - C1  
French - B1  
Spanish - A2  
Italian - A1

## PROFILE

A programmer with over 2 years of experience, combining a specialization in frontend (Angular/TypeScript) with a solid Full Stack foundation (Symfony/PHP, Java/Spring Boot). Proficient with DevOps ecosystem tools (including Docker, Grafana, Keycloak). In my work, I value precision and efficiency—much like in motorsports. I translate the systematic approach and determination developed through strength training into a consistent pursuit of project goals. I am seeking further development in building modern, scalable applications.

## WORK EXPERIENCE

**Polska Grupa Farmaceutyczna** 2024 - NOW  
Frontend Developer (Angular)

- Development and maintenance of specialized SPA (Angular) applications for the pharmaceutical industry, including WMS and CMS systems.
- Implementing new functionalities and user interfaces (UI) based on designs.
- Integration with backend services via RESTful APIs.
- Supporting the development and maintenance of selected microservices based on Java and Spring Boot.
- Ensuring high code quality, performance, and application responsiveness (RWD).
- Writing unit tests (Jasmine/Karma) and active participation in the Agile (Scrum) process.

**LSI Software** 2022 - 2024  
Full Stack Developer (Angular + Symfony)

- Comprehensive design and implementation of applications for the HoReCa sector, including a complex e-commerce platform with a dedicated order configurator.
- Developing the backend layer in Symfony, including REST APIs for CMS systems integrated with POS (Point of Sale) devices.
- Building a modular frontend (SPA) application in Angular, handling client-side sales and configuration processes.
- Optimizing Doctrine ORM queries in high-traffic e-commerce systems and supporting the development of hotel reservation and warehouse management applications.
- Ensuring high code quality through unit testing (TDD/BDD) and mutual Code Review.
- Active participation in the full software development lifecycle - from requirements analysis to deployment and maintenance.

## EDUKACJA

**B.Eng. in Computer Science (part-time)** 2024 - NOW  
Lodz University of Technology

**Technical Secondary School - IT Technician** 2019 - 2024  
Jan Szczepanik Technical Secondary School No. 10 in Łódź
